AQUA-DEK™

TRADE-UP.

One panel of Aqua-Dek™ for every two panels of other decking products.

Aqua-Dek™ is a lightweight, finished decking system that works well in both freshwater and saltwater environments. With unique 24 x 48 panels and 24-inch-on-center design, it reduces installation time – not to mention the number of stringers needed and frame costs.

Stop messing around with 12-inch decking products requiring 12 or 16-inch-on-center stringers. Trade-up to Aqua-Dek™ today for a better product and lower cost!
